

VAN HAM

Collection Creutzfeldt

The three impressive steles are from the collection of Prof. Dr. Dr. Werner Otto Carl Creutzfeld (1924-2006) internist and formerly director of the section gastroenterology and endocrinology of the University of Goettingen. He is son of Hans-Gerhard Creutzfeld, after whom the Creutzfeld-Jakob-disease was named and he is a brother of the neurophysiologist Otto Detlev Creutzfeld (1927-1992) and a grandson of Werner Sombart.

In the years 1964-68 he traveled with his wife to India, where he bought the steles.
